

HR Support Tools

# Organizational Charting

**Using the OrgPublisher tool**, NASA employees now have the ability to **graphically view**, with the click of a button, **automated and integrated Agency and Center organizational information**. This new organizational charting capability provides detailed organizational information, names, and titles.

Available through the **Human Resources Portal (HR Portal)**, <https://hr.nasa.gov>, employees can easily view, search and drill through all NASA organizations. Future capabilities will allow HR Specialists and supervisors to view organizational charts which can be customized with icons which identify additional employee attributes to support organizational planning and decisionmaking. Additional data elements are available (e.g., retirement eligibility status, co-op employees, detailees, supervisory status, etc.)

## Current Capabilities:

- Direct access to Agency-wide and Center-specific charts
- Drill-down capabilities allowing navigation through multiple layers of an organization
- Search – Robust search capability enabling users to locate employees within an Organization
- Printing – Ability to print charts on a single page

## Future Capabilities:

### For Employees:

- Senior management photos incorporated in chart views

### For HR and Supervisors Only:

- Access to additional data including co-op employees, detailees, supervisory status, etc.
- Ability to filter and sort on desired data
- Organizational planning capabilities
